ABOUT BSAP

Established in 2006, the Billerica Substance Abuse Prevention Committee is comprised of eleven members appointed by the Board of Selectmen, the Police Chief, the Fire Chief, the Billerica Public Schools Superintendent, the Board of Health and the Shawsheen Valley Technical High School Superintendent, who continually work toward achieving the vision and the mission of the committee.

Mission and Vision: To increase awareness, promote education, and provide resources to the community in order to reduce community-wide substance use disorder in Billerica. By fostering a community that embraces healthy choices and healthy lifestyles, we work to promote an addiction and stigma free society, so its families and its children may enjoy the peace and prosperity that evidence based solutions facilitate.

This guide includes an array of resources on where to go for help to support individuals and families in the recovery process.

CONTINUUM OF CARE SERVICES FOR ALCOHOL AND OTHER DRUG ADDICTIONS DETOX

Detox or Acute treatment services (ATS) programs are medically monitored detoxification (detox) services. Programs provide 24-hour nursing care, under the consultation of a medical director, to monitor an individual's withdrawal from alcohol and other drugs and alleviate symptoms. ATS programs are community-based inpatient programs that provide clients with 24 hour evaluation and treatment. All clients collaborate with a case manager in the development of a service plan for aftercare services including outpatient counseling, transitional support services, residential rehabilitation, or opioid treatment as clinically appropriate. Average length of stay is 3 to 5 days.

TSS-TRANSITIONAL SUPPORT SERVICES

Transitional Support Services (TSS) are short-term residential programs for individuals who need further stabilization after detoxification. Admission is limited to clients discharged from ATS and homeless clients. Average length of stay is 14-21 days. TSS programs provide 24-hour structured, supportive residential housing and services using case management and psycho-education to assist clients in implementing an Individual Service Plan. Case Managers provide linkages and intragency collaboration to next step programs and assist clients in obtaining the credentials necessary to apply for social service benefits, i.e. copy of birth certificate, identification, etc.

MEN'S RECOVERY HOMES

Recovery Homes provide a structured, alcohol & drug free environment for individuals recovering from addiction. These programs emphasize recovery and treatment within a structured, therapeutic setting. Residents are encouraged to integrate with the community and to access community resources, including self-help groups and employment. Social Model programs emphasize a sober living environment, peer counseling and case management. The emphasis of these programs is to assist residents to provide each other with a culture of recovery, support, sharing and positive role modeling.

MEDICATED ASSISTED TREATMENT

Opioid Treatment provides medically monitored treatment services for clients who are addicted to opiate drugs such as heroin or pain medications. Services combine medical and pharmacological interventions (such as methadone or buprenorphine) with professional outpatient counseling, education, and vocational services. Services are offered on both a short- and long-term basis.

YOUTH, TRANSITION AGE YOUTH, AND YOUNG ADULT SERVICES

These services promote wellbeing by building on strengths and by preventing and treating substance use disorder, HIV infection, and related risk-taking behaviors. Services target age 12 to 25 that are at increased risk for alcohol and/or other drug related abuse. Some services may be provided in schools, courts, community agencies, and housing projects and/or on the street, and may offer education/skill building, alternatives to substance use, youth development, problem identification, and referrals. Service types include: Outpatient Counseling, Residential and Criminal Justice Collaboratives.

~~Problem~~
Solution

COASA: CHILDREN OF ALCOHOLISM AND SUBSTANCE ABUSE

COASA supports children of alcoholism and substance abuse by serving as an advocate for them in community forums and by developing appropriate supportive educational groups for children of alcoholics and other substance abusers in Boston. COASA facilitates school and community-based prevention/intervention services, adapting them for the particular needs of the children we serve. The program provides the children with a framework for understanding what they are experiencing and teaches them to break the “don’t talk, don’t trust, don’t feel” rules they live within at home. The children learn about the “seven Cs “ (They didn’t CAUSE it, can’t CURE it, can’t CONTROL it, can take CARE of themselves, can COMMUNICATE their feelings, can make healthy CHOICES and can CELEBRATE being themselves).

The purpose of the program is to provide ongoing validation, support in developing positive social skills and improvement of individual self-esteem. COASA works within the Boston neighborhoods with the drug coalitions now in place and with the Massachusetts Organization for Addiction Recovery (MOAR). The program offers resources to the children, whether the parents are in treatment or not.
